

eT Tech

Save Time. Get More Leads. Increase Revenue.

We take over your entire tech stack so you can focus on running your business.

Stop losing money to bad tech and messy spreadsheets.

Custom Websites

Beautiful, blazing-fast websites designed to rank on Google and convert local visitors into paying customers. **Starts at just \$99.**

Automated Follow-Ups

Never lose a lead to a missed call again. We set up systems that instantly text customers back while you are out on a job.

E-Commerce & Shopify

Want to sell online? We build and manage high-converting digital storefronts that handle inventory and payments effortlessly.

Tech & Software Cleanup

Stop paying for 10 different apps. We audit your business, consolidate your software, and automate the boring tasks.

Ready to grow your business?

eT Tech

Small Business. Big Technology.

**We handle the tech.
You handle the business.**

Most local businesses are losing thousands of dollars a month because their website is outdated, they miss phone calls while on the job, or they are paying for 10 different expensive software subscriptions. eT Tech partners with local businesses to solve this.

The eT Tech Difference

✗ Before eT Tech

You are up on a ladder or under a sink. A customer calls, but you can't answer. They call the next guy on Google and you lose a \$500 job.

✓ After eT Tech

You miss a call. Our system instantly texts the customer: "Sorry we missed you! How can we help?" They text back, and you secure the lead.

✗ Before eT Tech

Your website was built in 2012. It looks bad on mobile, loads slowly, and Google hides it from local search results.

✓ After eT Tech

You have a gorgeous, blazing-fast website with a "Text Us" button. It ranks on Google and turns local traffic into paying customers.

✗ Before eT Tech

You pay monthly for Mailchimp, Calendly, QuickBooks, Square, and a CRM, but none of them talk to each other.

✓ After eT Tech

We consolidate your software, saving you hundreds a month, and automate your workflow so everything runs smoothly.

Ready to completely upgrade your business?

Our experts are ready to provide a free audit of your current tech setup.
